SONGDECK GUITAR INTELLIGENCE

# YOUR RIG. YOUR CUSTOM BOT.
# THE UNFILTERED SECOND OPINION.

Voice-logged gear provenance, rig-matched daily news, and an **anti-hype AI bench tech** that challenges your GAS before you spend a penny.

## 1. 60-SECOND CUSTOM BOT ("THE BARSTOOL AUDITION")

*GAS enabler or devil's advocate?*

- **100-word manifesto:** Drop your heroes, pet peeves, and tone biases to compile a custom bot with its own *Hill to Die On*.
- **Zero polite AI waffle:** Grounded in real circuits, solder, and live mixes—built to push back, never flatter you.
- **5 built-in sparring foils:** Jump straight in with our house roster, or pit your custom bot against its natural opposite:

**Hank**
Vintage Luthier

**Tim**
DSP Architect

**Stevie**
Valve Purist

**McGee**
High-Gain Modder

**RobBPaul**
Gig Pragmatist

## 2. FORENSIC RIG PASSPORT

*Zero form-filling · Buyer-grade provenance*

- **Hands-free voice logging:** Say *"Elixir 9s on the Nuno, tweaked the springs"*—live mic EQ, nickname match, and 1-tap undo.
- **Micro-spec & preset vault:** Custom gauges `8–42 hybrids`, pickup serials, snapshots, and Helix / Quad Cortex / Kemper links.
- **Smart alerts & audit trail:** Learns your real restring cycle and keeps a strikethrough service log buyers can trust.

## 3. RIG-MATCHED RADAR & BACKSTAGE

*47+ feeds · Filtered twice daily*

- **Kills the gear noise:** Scans 47+ blogs, forums, and YouTube—flagging your rig `Matches: Marshall DSL50` and hero players.
- **Daily 4-round showdowns:** Opposing bots debate the day's biggest gear drops so you hear both sides before buying the buzz.
- **1-tap "Ask Your Bot":** Jump from any story straight into Backstage for an instant teardown—never a parroted summary.

## 4. THE TRADER

*24/7 used market leverage*

- **Rig sanity check first:** Hunts used marketplaces under your budget—only *after* agreeing the piece fills a real gap in your setup.
- **Hard negotiation ammo:** Exposes days unsold `142d on market` and past price drops `£950 → £850` before you bid.
- **Geo-locked alerts:** Strictly filtered to your shipping zone (UK, US, or Worldwide)—zero customs surprises.

**NAPKIN INGESTER · 1-TAP IMPORT:** Paste messy Apple Notes, receipts, or CSVs. Ryff separates the gear, resolves UK/US date clashes, and imports years of rig history in seconds.
